Villa Alba: Gardone Riviera

Nestled in the beautiful setting of Lake Garda, Villa Alba is an architectural jewel that embodies the elegance and history of the Riviera. Built in the early 20th century, the villa stands majestically on a panoramic hill, offering breathtaking views of the lake and surrounding mountains.

The villa's neoclassical façade is characterised by large arched windows, balconies overlooking the garden and decorative details reminiscent of the art of the past. The Italian-style garden, cared for with passion, is a true corner of paradise, with flower beds, century-old plants and paths winding among statues and fountains, creating an atmosphere of tranquillity and beauty.

Inside, the rooms are tastefully furnished, combining period furniture and works of art, in a perfect balance of history and modern comfort. The rooms are bright and welcoming, with high ceilings and marble floors that reflect natural light, while the spacious terraces offer ideal spaces to relax and enjoy the view.
